**2006 Regional Conference Speaker Evaluation**

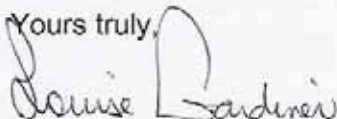

Dear Stuart:

I was pleased to confirm publicly at the last of our 2006 Regional Conferences where you presented a (3) hour sales intensive session that you were one of the most dynamic speakers I have ever worked with. I am also now pleased to confirm that statement to you in writing.

Thanks to your unique approach of partnering with us before, during and after your presentation we have been able to generate over three hundred and fifty (350) *Sales Success Stories* that have been consistently emailed in by our people. Each of these *Sales Success Stories* chronicles, empowers and shares the way our owners and front line people have personally adapted your suggested sales insights and actions to actually generate new sales!

Here we are more than four (4) months later and our people are still sending in Sales Success Stories! In fact, we just posted a new Success Icon focused on selling RBC Travel Insurance.

It is without hesitation that we recommend you 'Twitchy!' to any professional audience or group of sales professionals who are continually seeking to improve their own lives and those that they interact with.

Yours truly,  

Louise Gardiner  
Director, Leisure Travel Canada
