Re: BC Tourism Industry Conference, Kamloops, BC,

Dear Stuart,

This letter serves to confirm how much we appreciated selecting your professional speaker services. Brian Tobin, our Provincial Premier Gordon Campbell, and you delivered the three keynote addresses that were crucial to the draw and overall success of this year's conference.

Strategically we were seeking a closing keynote speaker who could deliver a humorous, entertaining session and who would also add the value of a message that could be put to immediate use by every conference delegate. This letter serves to confirm that you more than met and exceeded our planning expectations and those of the audience who gave you a well deserved standing ovation.

Our conference theme this year was, " Tourism – No Boundaries ". Your keynote message was both supportive and complimented this theme with an edu-taining address that solidly delivered a set of communication tools. Thank you for also taking the time and effort to customize your address, and add elements from the other presenters to close off a very successful conference.

It was a pleasure to work with you on this important conference. It is without any hesitation that we recommend your services to any group seeking a keynote or general session speaker who consistently delivers!

Yours truly,

Ms. Nora Wood
